Hardik Agarwal

Senior Product Designer

Hyderabad, India madebyhardik@gmail.com +91-9205538968
linkedin.com/in/hardikkagarwal hardikk-agarwal.github.io/Design-Portfolio

Product Designer with 5+ years across AI, enterprise B2B platform and consumer products. Rated Outstanding at a global technology company, where I lifted app marketplace developer onboarding from 35% to 73% and cut it from ~15 days to ~1 day. Designs end-to-end, from product strategy to prototypes in code with AI, collaborating with product managers and engineers.

EXPERIENCE

UX Designer

Global technology company · Mar 2025 - Present

- Redesigned app marketplace company account onboarding — lifted success 35% to 73%, cut onboarding ~15 days to ~1 day, scaling to 240+ companies across 50 countries.
- Led design for the Trusted Developer Program pilot with a PC management app (20 apps, 313K+ trust dialog views) and developer identity verification concepts, grounded in research with 100+ participants.
- Raised craft in biometric sign-in and passkeys — triaged 30+ usability issues, contributing to 20% fewer craft bugs, System Usability Scale 79.5 to 83.2, and a 12% lift in biometric enrollment.
- Standardized AI sports answer cards — the AI result surface for cricket, tennis, motorsports and American football — into a reusable schema enabling 4 new sports per cycle.
- Drove AI-assisted design practice — Claude Code and Figma MCP workflows, design-to-code prototyping, and agentic prototypes demoed to 30+ cross-functional stakeholders.

Senior Associate UX Designer

Tech Mahindra · Feb 2023 - Jan 2025

- Designed search answer modules for a leading search engine, serving 1M+ user queries monthly.
- Optimized travel search across flights, destinations, hotels and car rentals — 20% improvement in booking success.
- Led user research and usability testing that raised post-interaction satisfaction scores 45%.
- Contributed core components to the search design system, used across 5+ major products, and cut design signoff turnaround 40%.
- Revamped an SMS Organizer app, increasing user engagement 30%.

Visual Designer

PlayShifu · May 2021 - Jan 2023

- Launched 6+ AR STEM games for children aged 6–12, lifting educational engagement 40%.
- Led the 3D avatar team from concept art to app integration — swappable avatar system improved resource reuse 20% and enabled customization for 10,000+ users.
- Converted traditional HUD UI to diegetic (world-space) UI for VR, raising interaction rates 35%.
